Mrs. Kennedy and Ada, the injured girl, were present, and on the sight of them Kennedy set up a blubber, appealing to every one present to do something for him.

The girl was very much excited, and constant assurances by her step-mother that all present were her friends, only excited her sufficiently to be sworn.

Kennedy first asked for another hearing, but finally concluded to waive any examination, and leave his case to the Grand Jury. His bail was then put at \$5,000, and the girl recognized in the sum of \$500 to appear at the trial as a witness.

When asked what he had spoken to W. Root, but that he had declined.

At the conclusion of the proceedings, Kennedy was taken back to jail, seemingly in a half-crazed state of mind, pleading to every one to try to do something for him.

REASON TO REJOICE.

Surrounded as we are by adulterators of food and drink, and living in the midst of their vile products, it ought to produce at least a refreshing sensation to be told where a real genuine article can be obtained. Such a species of gratification may be had by purchasing a box of Dr. Price's Cream Baking Powder, or a box of his Flavoring Extract. Economical housekeepers, will no doubt have every reason to rejoice in making such a thrifty investment; for the biscuits and articles made with Dr. Price's Baking Powder are really elegant, while the flavor to cakes, puddings, and such like, has been tested by thousands, and has been found to be as natural as the fruit from which they are made. Aside from this, their absolute purity renders them wholesome and agreeable to the most delicate stomach.
